Mission

Strengthening the foundation with a bulwark of Indian culture and empowering girls to create balance between tradition and modernity.

Our Belief

HMV Collegiate Senior Secondary School believes in imparting the education that enables women to become responsible, self sufficient, independent & empathetic global citizens, who can make positive contributions in today's rapidly changing world.

Swami Dayanand Saraswati
(12th February 1824 –
30th October 1883)

Swami Dayanand Saraswati is the founder of DAV movement. He is also the founder of the Arya Samaj that brought changes in the religious perception of Indians. He worked towards reviving Vedic ideologies and brought a complete overhaul of education system by introducing Anglo Vedic schools to offer Indian students an updated curriculum, teaching both the knowledge of the Vedas along with contemporary English education. He was given the epithet of Maharishi and is considered as one of the makers of modern India.

Mahatma Hans Raj
(19th April 1864 –
14th November 1938)

Mahatma Hans Raj is a distinguished educationist and follower of Swami Dayanand and Arya Samaj. He laid the foundation of Hans Raj Mahila Maha Vidyalaya in the year 1927 at Lahore. After partition, the institution was shifted to Jalandhar in 1948. The Spartan simplicity of Mahatma Hans Raj's life is exemplary and he continues to inspire us to bring about changes in sync with the global scenario of education.

INSPIRE CAMP- 2018

The science faculty organized an innovative programme sponsored by the Department of Science and Technology, Government of India to attract the talented students towards science. More than 200 students from about 15 schools from various districts of Punjab attended the camp this year. The camp comprised lectures, interactive sessions, video lectures, hands-on practical sessions and workshops by the experts from various disciplines. The eminent scientists from various academic institutes from India including Panjab University Chandigarh, GNDU, Amritsar, Jamia Millia Islamia University New Delhi, Kurukshetra University, Indian Institute of Science Education Research Mohali, IKG Punjab Technical University Kapurthala, IIT Kanpur and CSIO Chandigarh were the affable mentors of the camp.

26th CHILDREN'S SCIENCE CONGRESS

A program of National Science Council for Science and Technology Communication was organized by the Department of Science and Technology, Govt. of India. The people from different disciplines, different ages and different expectations came together and talked about new arenas of science and technology. Around 15 schools participated in this science congress. The sole objective of the session was to stimulate scientific temperament and enable the students to show their creativity and innovation.

CLUBS AND SOCIETIES

To imbibe the true spirit of learning and to spot the latent talent in the students, various clubs and societies have been established in the school to envisage the development of talent in co-curricular activities like music, dance, oratory skills, theater and various other fields. These societies provide ample opportunities to the students to showcase their talent through cultural events and competitions held round the year.

ECO PROGRAMME

Keeping in mind the grave condition of mother earth it has become need of the hour to sensitize students about their duty to keep our earth clean and green. It is the responsibility of every Indian citizen to keep our nation clean. For strengthening our bond with nature our school has taken a small initiative to recycle a lot of things which are labelled as dump are used for growing plants.

MELANGE OF ACTIVITIES

The latent creative abilities of students are kindled, inculcated and reinforced through various competitions, activities and exhibitions throughout the year. The innate potential of each student comes to the surface, gives them a chance to realize their interest and aptitude and therefore be able to make their mark in the maze of the world.

TRIPS AND EXCURSIONS

To gain respite from strict rigmarole of academics and to facilitate the students to know and understand the real, multicultural world, the school organizes educational trips to strategically and historically important places to reach out for information beyond the text books. These trips are planned to add fun, enthusiasm and to extend a much needed break from the hectic schedule.

Giving importance to the involvement of parents in the school education process, PTM is held thrice a year and parents are duly informed to attend the same. However, the parents can meet the school Co-ordinator round the year, any time by taking a prior appointment.

For me, life in HMV has been breath-taking and enriching. Supportive seniors and faculty, beautiful campus, quality education, real world experiences, and amazing friends, it is everything one needs from a school and a network developed for life. The growth, I have seen in myself due to HMV, is invaluable. It has taught me thing far beyond bookish knowledge and helped me broaden my horizons.

I am proud to say that I belong to this wonderful temple of knowledge. The environment not only helped me in imbibing knowledge but also in developing my overall personality, fuelling confidence in me.

Life as HMVian is unique in its own right. Here students are perfectly balanced with extra co-curricular to achieve overall development. I can say with absolute certainty that I have been able to reinvent myself into someone more confident than I was ever before.
